

SHIMON EZEKIEL

Product & Business Operations Lead | Founder & Operator | Quantitative Trading Systems Builder | EMBA, Tel Aviv University

Ramat Gan, Israel | shimonez@gmail.com | [LinkedIn](#) | [Portfolio](#)

ABOUT ME

Two-time founder (EMBA, Coller, Tel Aviv University) who has built three businesses in three unrelated industries - fashion, sports staking, AI software - entering each cold. I work backwards from outcomes: model the economics, build the systems, and own every dependency - cash flow, global supply chains, international team leadership, and today the code itself, which I build hands-on with AI. This includes designing and automating custom options trading and multi-asset regime-switching trading engines.

CAREER HIGHLIGHTS

- Co-founded Works4you and own the technology product end to end - including hands-on build of automated quantitative option (iron-condor) and regime-switching (regime-trader) trading systems integrating with Alpaca API.
- Founded and owned TWOTONE as CEO for a decade - built a retail and e-commerce fashion house from zero to 100+ boutique partners, owning full P&L, manufacturing, import and customs, and custom ERP/CRM integrations.
- Built and ran POKER111 across three continents - managing international operations and player risk, while leading distributed dev teams in Nepal, Belarus and Brazil on custom data analytics (Power BI, Looker Studio).

AREAS OF EXPERTISE

Product & Operations • Quantitative Trading Systems • Hands-on AI Build (Python) • P&L Ownership • Distributed Teams • Global Logistics & Compliance • Data Analytics (BI/SQL) • Financial Modeling • Go-to-Market • CRM & ERP Systems

PROFESSIONAL EXPERIENCE

Works4you - Co-Founder, Product & Business Operations | Feb 2026 - Present

- Co-founded Works4you; own the technology product end to end, building hands-on with AI and vibe-coding tools.
- Designed, backtested and implemented automated quantitative trading strategies, including a multi-asset regime-switching system with graduated crash hedging (regime-trader) and options trading tools (iron-condor) utilizing Alpaca API.
- Drive business development alongside product - shaping the model, offering, and go-to-market, including for 4rest4all (Natural Capital).
- Currently in active development; stress-testing core product and economic assumptions using lean, low-cost experiments.

POKER111 - Product & Operations Lead | 2024 - 2026

- Managed product and operations for a multi-continental sports-staking venture, scouting and managing player risk.
- Recruited and led distributed development teams across Nepal, Belarus and Brazil to build tracking and automation tools.
- Built performance dashboards (Power BI, Looker Studio) and automated data workflows to manage player staking pools.

TWOTONE - Founder & CEO | 2014 - 2024

- Founded and led two brands end to end - TWOTONE and Monochrome - a retail and e-commerce fashion house scaling to 100+ boutique partners.
- Owned the full P&L - financial planning, pricing, cash flow, and strategy - alongside production, marketing, own-brand stores, employees, and suppliers.
- Managed manufacturing, sourcing, global logistics, and importing from Italy, including customs clearance and compliance.
- Managed the full business-technology stack - website, ERP and CRM (Comex ERP, Pipedrive CRM), and marketing automation.

EDUCATION

Executive MBA (EMBA) - Coller School of Management, Tel Aviv University, 2016-2019

B.A. Industrial Design & Arts - Avni Institute of Design, 2010-2014 | Practical Engineering Certificate, 2012

ADDITIONAL

MILITARY SERVICE

Flight Control Technician, Israeli Air Force - complex, sensitive components on fighter jets and helicopters.

Languages: Hebrew (native), English (fluent).
